

Mitigate Your Workforce Risk with eVerifile's Background Screening Solutions

Handyman Connection understands the challenges franchise owners face when hiring a qualified workforce. As a franchise owner, you know the value of a good employee with great skills. To reduce risk and mitigate liability, background screening employees has become an essential element of hiring.

**Handyman Connection is proud to announce our strategic partnership
with background screening leader, eVerifile.**

Top 5 Reasons We Recommend eVerifile For Our Franchise Owners

Customized Background Screening Solutions

eVerifile has worked with small businesses, Fortune 500 companies, and even the government to customize background screening solutions that meet desired rigor and timeliness.

Easy Online System

We were particularly impressed with eVerifile's web-based system, which can be accessed securely from any computer. Reports are ordered online using a simple "point and click" ordering process and are retrieved electronically upon completion.

Preferred Pricing

Because eVerifile is a high-volume background-check provider focused on multi-unit and decentralized hiring organizations, they offer some of the most competitive prices in the industry. The Handyman package includes two criminal background reports for a discounted rate of \$29 per applicant, and a required annual re-check for \$6 per applicant.

Easy Registration

1. Order Background checks for candidates directly from Career Plug.
2. From Career Plug, click on the "Initiate" link in the Background Screening step for any candidate, and you will be taken directly to the eVerifile site.

Streamlined registration and onboarding process

1. The eVerifile registration process will require a business license and three business references.
2. When registering, it is important to register your company by the company name and city where your franchise is located i.e. Handyman-Blue Ash (use your assigned Handyman Connection Territory name).
3. Once you have registered, our enrollment team will provide a user guide. Additional training can be provided upon request.
